

Dear valued Customers,

We regret to inform you that Byfod has ceased all export activities until further notice. This is due to the COVID-19 (CORONA) virus. The Dutch Government has announced the mandatory closure of all public places such as schools, bars, restaurants, hotels, sports clubs etc. to prevent the disease from spreading. The government is taking more and more drastic measures by the day to prevent the further spread of the COVID-19 (CORONA) virus.

Byfod will also take its responsibility by not calling in any employees in the coming weeks. For Byfod the number one priority is the safety and wellbeing of its employees. We expect to be operational again in three weeks, but we keep you informed regularly. The situation can change any given day.

Unfortunately we can't accept any orders for the coming weeks and placed orders for the coming weeks are hereby cancelled.

This is not an easy decision for us to make, but we count on your understanding and support.

We hope you, your colleagues, friends and families stay safe during these rough times.

If you have any questions or concerns please share them with your sales representative.

**With kind regards,
The Byfod Team**
